

No Better Winter Breakfast than

SHREDDED WHEAT

Warms - high in calories and carbohydrates
Healthful - easy to digest, a safe regulator
Delicious - heat in oven, serve with hot milk
Made by The Canadian Shredded Wheat Company, Ltd.

Western Canada in the Spotlight

The attention of people in all parts of Canada, and, in fact, of the world, will be directed to the prairie provinces of this Dominion during the next few months in a way and to an extent probably unprecedented in the history of any country, by reason of the applications to the Dominion Parliament for charters to build many hundreds of miles of railway in the northern portions of Manitoba, Saskatchewan and Alberta.

Both the Canadian Pacific and the Canadian National Railways are asking Parliament for power to enormously extend their lines into the north country, and both announce their eagerness to proceed with the work of construction with the least possible delay. There is the keenest kind of rivalry between these two giant systems for rights into certain sections of this territory, with the result that a battle royal will take place at Ottawa when Parliament assembles.

One thing emerges quite clearly from the situation that has developed with almost startling suddenness, and that is, that, despite all former statements and predictions to the contrary, the railway managements of Canada are now convinced of the enormous wealth of natural resources in the more northerly portions of Canada and of the success of the Hudson Bay Railway and Hudson Bay route to the markets of the old world.

There had long been a suspicion in the minds of many Western people that the former opposition in Montreal and other Eastern centres to the construction of the Hudson Bay Railway was based, not on their professed scepticism as to the feasibility of the route, but because of their belief that the route would prove to be an unqualified success, with all the upheaval which the opening of this short route from the heart of the prairies to the markets of the world would cause in existing transportation conditions, rates, and routing of traffic.

Examination of the plans of the railways, as thus far outlined, indicate a reversal of formerly held views that the people of Western Canada should be served by lines running east and west, with all the tremendous production of the prairies moving out either to the Atlantic or the Pacific seaboard, and all our imported products coming in through the same ports. Now, both of the great railway companies appear to be determined to connect up their east and west lines by short branches here and there and the construction of great north and south main lines, all stretching hundreds of miles north of existing settlement and heading towards tidewater in the north. A veritable railway revolution is in prospect.

This declaration of absolute confidence in the northern half of these prairie provinces, and in the Hudson Bay outlet, evidenced by the willingness of the biggest financial men in Canada interested in the C.P.R. to expend tens of millions of dollars in northern extensions, will attract the attention of the whole world and will constitute the greatest publicity this section of the Dominion has ever received.

Regardless of the decisions reached by Parliament as to division of the northern territory between the rival systems, and the respective zones to be allotted to each, the result will be to roll back the map of Canada hundreds of miles. The old reproach and weakness of Canada that it consisted of a narrow strip of more or less settled territory extending thousands of miles from the Atlantic to the Pacific along the Canada-United States boundary line, is to be removed. To the Dominion will be given great depth as well as great width, and what for centuries has been looked upon as barren wastes of extensive territory, but of no value, will become a storehouse of treasure, the development of which will add enormously to the population and wealth of the Dominion, providing new avenues of employment, and diversified employment at that, for the people of Canada.

An Old Observatory

A prehistoric observatory has been unearthed at Buetzow, Mecklenburg. It is estimated that the construction of the observatory commenced around 1181 B.C. It is in the form of a circle of stones, which served for the observation of the annual circuit of the sun and also as a calendar.

The latest wonder of agriculture, is a cabbage plant which produced six heads of cabbage in turn, one above the other.

The volume of general business in 1928 measured in physical units was about 13 per cent greater than in 1927.

Times change, and now the parent who provides spending money and doesn't interfere is called a good parent instead of a fool.

Railway to Sherritt-Gordon Mines will extend from Cranberry Portage north to Sherritt-Gordon Mines, a distance of 42 miles. This project will involve the sum of about \$2,000,000.

A python 25 feet long, a giraffe 20 feet tall, an elephant weighing four tons and an insect measuring 12 inches are among the "records" of the London zoo.

Hewitt—I suppose you joke writers are always looking for a funny thing.

Jewett—"Yes; glad to have met you."

She—"Alfred, I know I have my faults."

He—"Yes, dear."

She (frigidly)—"Then perhaps you'll tell me what they are."

Simple Precautions Against FLU

Sore Throat —

— The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

Speakers At Dinner Of Canadian Society

U.S. and Canadian Senators Guests At Function In New York

The Canadian Society of New York helped to strengthen the North American entente cordiale by bringing together as their guests at their annual dinner two senators, one from the Canadian Upper Chamber, Hon. C. P. Beaubien, K.C., and the other from the United States House, Hon. Simon D. Fess, of Ohio. The speakers dealt with the aspirations of the two countries.

Senator Fess frankly discussed the two chief issues now agitating the Congress, the Kellogg treaty and the new cruiser program, and he readily supported both. The United States, he declared, should not put any obstacle in the way of the effort to banish war.

Senator Beaubien reviewed the development of Canada in recent years and painted a glowing picture of the Dominion's future.

"Canada, with a vision quickening and widening, has remained sober-minded, fairly traditional, and, I think I can add, hardworking and still law-abiding and God-fearing," he said.

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempt, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says:—"I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 78th year I am feeling as well and smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta's Peer's Estate

Estate Of Earl Of Egmout Estimated To Approximate One Million Dollars In Value

That the estate to which the Earl of Egmout, of Pridles, Alta., has fallen heir, will approximate one million dollars is an estimate made at Calgary with his assistance.

The bulk of the estate comprises Avon Castle, the family seat at Ringwood, Hants, and 1,300 acres surrounding it.

Some \$40,000 has been spent lately in improving the land and the residence, declared the new earl.

In addition, he says, there are investments in stocks and shares and in war bonds amounting to a large total.

"When you grow up you shall be a gentleman."

"I don't want to be a gentleman. I want to be like you, daddy."

Testing Factors in North

Success of Experiment Will Have Far-Reaching Effect on Methods of Transportation

An experiment by the Hudson's Bay Company with tractors, which, if successful, may have a far-reaching effect on the methods of transporting supplies in the northwestern Arctic, is being tried out this winter, according to Bishop Anderson, who has returned from a trip to the north.

A number of tractors were shipped to Wager Inlet, north of Chesterfield Inlet, he said, and the intention was to use them in hauling supplies across the barren lands to Port Cockburn, 150 miles away. The posts in the territory beyond Port Cockburn at present receive their supplies by ship from Vancouver through the Behring Straits. They may in future be served from Montreal, if the experiment proves satisfactory. The result of the experiment will not be known for some time.

Shows Canada's Loyalty

London Paper Expresses Appreciation Of Reverse To Penny Postage

The London Sunday Times in an editorial headed "Canada leads the way," welcomed the increased British immigrant quota as emphasizing the practical loyalty of Canadians to their British stock, but fears that the proper advantage may not be taken of it in Great Britain. The newspaper quotes further encouragement both of propaganda and finance. The Sunday Times also expresses appreciation of the penny postage and finds in it "a signal proof of Canada's strong imperial sentiments."

After urging Hon. Winston Churchill, chancellor of the exchequer, to follow Canada's example the Sunday Times advocates a common empire stamp which, it states would have a real psychological value as a symbol of imperial unity.

A pleasant medicine for children is Mother Grave's Worm Expeller, and it is excellent for driving worms from the system.

Canadian Cheese

The production of factory cheese in Canada in 1926 amounted to 171,731,631 pounds. The value was \$61,753,390.

Minard's Lintment prevents Flu.

Customer (doubtfully): "Is it a pedigree dog?"
Dealer: "Pedigree! Why, if this dog could talk he wouldn't speak to either of us!"

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

WAS PROMINENT RUSSIAN

Outstanding personality of the Russian armies during the world war and regarded by Russian royalists as claimant to the throne of that country, Grand Duke Nicholas, cousin of the late Czar, died of pneumonia at his home in Antibes, France.

Must Keep Drama Clean

Bransby Williams, English Actor, Deplores Modern Tendency

"I am ashamed of the way in which the stage is being run in the United States, Canada and Great Britain," Bransby Williams, English actor, said in addressing the Brockville Rotary club, adding that, for the sake of the rising generations, the stage has got to be kept clean and the pictures "must be kept cleaner." In moving-picture theatres, he said, boys and girls are today reading titles that are despoiling the English language, and on the stage itself there appears to be no longer room for good, clean, beautiful plays, while the bookstores are full of questionable reading matter.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. It afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

Utilizing Coal Resources

The new Fuel Research Laboratories of the Department of Mines at Ottawa, were designed and the equipment selected with a view to carrying out investigations which would be in the interest of the development of the coal resources of the Dominion.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

Service De Luxe

One Man in Washington Has Private Traffic Cop

A traffic cop who serves one man is stationed in Washington. On a driveway leading to the office of the Secretary of Agriculture there is a crossing. It is in what is known as the Mall, the parkway extending from the Capitol to the Lincoln Memorial. Every morning about 8.30 the guardian of the crossing appears, turns four signs reading "No left turns" and waits until the automobile of Secretary Jardine comes along. Then up goes the copper's hand, and traffic stops to let the Secretary pass. As soon as he has gone by, the signs are reversed, and the policeman departs. About 4.20 in the afternoon the policeman shows up again and repeats the performance as the Secretary passes on his homeward way.

Needed Some Practice

Aunt: "Johnnie, why is it that you never remember to say 'Thank you'?"
Johnnie (eyeing wistfully a box of chocolates on his aunt's knee): "I expect it's 'cause I don't get enough things given to me to practice."

A fund opened by a Toronto newspaper for relief of the unemployed of Great Britain reached a total of \$28,094. The money was sent to swell the Lord Mayor's fund being raised throughout Britain.

An acquaintance says the most undesirable place in the world to live is beyond one's income.

Use Minard's Lintment for the Flu.

Every package of Red Rose Tea is prepared with the same care—as if our reputation were to stand or fall upon that single package.

In the best package—Clean, bright aluminum

Theory Of Relativity

Prof. Einstein Places Great Value On A Manuscript He Has Recently Completed

Prof. Albert Einstein has submitted to the Prussian academy of sciences a manuscript of five pages which, it took him ten years to complete and which he considers of more importance than his widely discussed theory of relativity.

The manuscript contains mathematical and physical formulas amplifying the theory. It is a treatise in abstract mathematics dealing with the problem of merging mechanics and electric-dynamics.

LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives; but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is soothing, cross, fretful babies and children to sleep and making the feverish, constipated, upset ones well and happy, in millions of homes today. Castoria is purely vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chas. H. Fletcher signature marks genuine Castoria.

Industrial Manitoba

Agriculture Has Now To Take Second Place To Manufacturing In Western Province

Agriculture now has to take second place to industrial manufacturing in Manitoba, according to figures of the Industrial Development Board. An estimate made by the Board places the output of manufactured goods in Manitoba this year at \$159,252,000, as compared with \$132,000,000 during 1927. The agricultural wealth produced in 1927 was placed at \$147,000,000.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Men outnumber women in the Irish Free State; the number of males being 1,505,889 compared with 1,465,103 females.

The most popular marriage age in England is 23 for brides, and 24 for bridegrooms.

New Metallurgical Discovery

New Process Said To Make Cardboard As Strong As Iron

What is called "the most important metallurgical process since the discovery of steel" is announced in an advertisement by the Einstein Electro-Chemical Process, Ltd., published in the London newspapers.

Materials which are non-conductors of electricity can now be electroplated, according to the claim made by this company, which asserts that wood, silk, porcelain paper and all metals can henceforth be coated with a surface of non-corrosive metal. As a result of the treatment even such flimsy materials as cardboard or plywood can be given the strength of iron and made resistive to the corrosive action of steam, heat, chemical fumes and water, it is declared.

Fortification of the frail fabric of airplanes and airships to the strength of steel, and solution of the boat-builder's problem by entirely metalizing craft of every description, are among the claims made for the new invention. Woodwork and textiles can be similarly metalized, it is asserted.

The advertisement asserts that the British Admiralty and Air Service have ordered articles on which the electro-chemical process has been successfully used.

Awful Asthma Attacks Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

Proves Columbus Was Spaniard

A document found in the archives of Pontevreda Parish, mentioned that place as having been the birthplace of Christopher Columbus. It thus bears out the claim that the discoverer of America was a Spaniard and not a native of Genoa, Italy. The document contained a description of the burial of Columbus.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

A power shovel being built at St. Louis, will dig fifteen cubic yards at one bite.

For Colds —

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ADS THAT "KNOCK"
Recent advertisements by one of
the big tobacco companies have
caused resentment among manufac-
turers of candies and other confec-
tions who threaten reprisals in case
the offensive advertising is not dis-
continued.

The tobacco people advise again:
the use of sweets, which are sup-
posed to make one fat, and recom-
mend the smoking of cigarettes in-
stead. The candy and pastry mak-
ers declare such advertising to be an
unwarranted attack upon their
business.

In like manner certain ink manu-
facturers countered the slogan,
"Don't write; telegraph," with the
suggestion, "Write, don't telegraph".
It is doubtful that any of these
methods of advertising are very ef-
fective. To an unbiased observer
they appear rather childish.

Most folks will eat sweets, smoke
a cigarette, write or telegraph ac-
cording to their appetites at the
moment, or according to the ex-
igencies of the occasion. Some slogan
makers take themselves too
seriously.

CINCHING A JOB

Born a poor boy 77 years ago,
Thomas F. Ryan died the other day
worth many millions of dollars. In
the meantime he had given away a
lot of money, also. But, so far as
the main facts of his life are con-
cerned, they do not differ greatly
for those of other poor boys who
have risen to wealth and power.

A little story is told, however,
which may give some insight into
the manner in which young Ryan got
his start toward great riches. His
first job was with a Baltimore dry
goods store, where he was hired for
18 a week and told to report for
work the next morning. Now, he was
in earnest about that job and didn't
want to take any chances on letting
it get away from him, so he said to
the boss: "If you don't mind, I'll
start right now without any pay for
today."

Needless to say he made good on
that job, and two years later, at
the age of 19, he obtained employ-
ment in Wall Street. At the age of
23 he became a member of the New
York Stock Exchange, from which
time his rise in the financial world
was rapid and he became one of
America's richest men.

Doubtless his remarkable success
was due to the spirit which he dis-
played in cinching his first job—his
willingness to "start right now." A
good many boys of today might emu-
late that spirit with profit to them-
selves.

TRAIN CARRIED SAILS

Can you imagine a railroad train
with locomotive and cars rigged out
with sails? Such a sight was com-
mon on at least one American rail-
road nearly 100 years ago, according
to a writer in the Louisville & Nash-
ville Employees' Magazine, who de-
scribes the early beginnings of rail-
roading in the South.

The sail-equipped train embraced
the rolling stock of the Pontchartrain
Milneburg, claimed to be the first
railroad between New Orleans and
railroad to be completed in the
United States. Probably it was com-
pleted first because it is only five
miles long, without a grade or curve.
A person standing at one terminus
can see the other. The writer says:

"Work was begun on March 10,
1830, and completed April 14, 1831.
The motive power was supplied by
horses until 1833, when the first
steam engine was secured. But as
a matter of precaution, for a while
thereafter the locomotive and cars
were equipped with sails for use in
case of engine failure."

Even this expedient would have
been of doubtful value when there
was no wind, or if it were blowing
head-on. But our informant didn't
discuss that phase of the matter.

A young woman walked into the
bank the other day and stepping up
to the window, said:

"I would like to open an account
here, please."

"We shall be very glad to accommo-
date you," said the Teller. "What

amount do you wish to deposit?"
"Oh," she said, smiling, "I mean a
regular charge account such as I have
at the department stores."

Walter Charton of Chicago tes-
tified in his divorce suit that "my
wife kicked me, bit me, scratched
me, pulled my hair and then kissed
me."

Mrs. Ada Gloran of Detroit in-
quired at detective headquarters how
long would she have to support a
"born tired husband."

Pierre Lefferens a "gigolo" of
Paris, drugged Mme. Louise Zeddine
and stole her jewels valued at \$60,-
000.

The Lord Mayor of Manchester,
Eng., received a letter from a Scot
saying he would "gladly marry a nice
widow with a nice home and about
\$1,000."

Roy Dearmon of St. Louis cut off
his wife's ear with a razor in a
quarrel that started when he was
shaving.

Someone has discovered that
"wholesome" is a queer word. Take
away the whole of it and some is still
left.

Here and There

(49)
Quebec.—Quebec is taking ad-
vantage of the Federal legislation
of last year known as the Canadian
Farm Loan Act, which provides for
loans to pioneers whereby the
Federal Government provides 90%
of the money, the province 5%, and
the borrower himself the remain-
ing 5%.

This year's largest inflow of
settlers destined for the west re-
cently arrived on two of the liners
of the Canadian Pacific fleet. There
were 1082 on the Montclair and 800
on the Melita, the majority being
of British birth, thereby establish-
ing a record for any individual
ship docking at the Maritime Pro-
vince ports this year.

A recent revision of the Customs
regulations now enables tourists to
bring their sporting equipment or
cameras into Canada without leav-
ing a deposit on account of their
dutiable value with the Canadian
Customs officers at the border. At
the present time the change in the
regulations will affect particularly
the Pacific Coast, where golf and
spring sports are in full swing.

Vancouver.—Over 100 miles of
trackage serving the ports of the
Vancouver district will shortly
have been laid by the Canadian Pa-
cific Railway, according to a state-
ment issued by the general super-
intendent of the district. The
trackage is designed to take care of
a steady and normal growth in
trade through Vancouver and also
to handle expansion in westward
grain movement which this year
has reached the record of 53,000,000
bushels.

John Walter, co-proprietor of the
London Times with Major the Hon.
J. J. Astor, arrived in Montreal
late last night where he addressed a gathering
under the auspices of the Na-
tional Council of Education. Mr.
Walter is covering the Dominion
over Canadian Pacific Railway lines
and will make addresses in most
of the larger cities. He is the fifth
member of the family, being a
direct descendant of the famous
John Walter, to be guide of this
newspaper since 1765.

On a long trip from Ontario to
Brussels, Belgium, forty muskrats
lately left Canada aboard the C. P.
S. S. Marburn bound for Antwerp.
The final destination of these ani-
mals is a farm near Brussels where
they will form the nucleus of a
muskrat farm. While handled by
the Canadian Pacific Express Com-
pany during the entire voyage, the
animals were fed two ounces of
oats and four ounces of carrots
daily with water once every two
days.

Saskatoon.—"I believe I have
found a wheat which, when further
developed, will be greatly rust-
resistant," said Dr. Seagel Wheeler,
several times winner of the Inter-
national wheat award. He went on
to explain that although he was
quite sure that this new type which
he developed from the kiota strain
would protect crops in the province
from rust damage, he did not think
that the wheat would be absolutely
free from rust under all conditions.
However, he considered from the
results of his experiments, that
even under the worst conditions
such as those of 1927, this wheat
would never materially be damag-
ed.

With the Compliments of
the season, I wish to an-
nounce that my office in
connection with the Massey-
Harris Agency at Gleichen
will be reopened on or about
Feb. 15, 1929. All enquiries
addressed to me at Gen. De-
livery, Calgary, will be for-
warded.

TWO ITEMS OF GOOD NEWS! . . . A 10 H.P. "CATERPILLAR"

Just what you want. Now there is a size for every farmer at prices within the reach of all. Little brother
to the larger size—smaller in size and price, but the same sturdy quality construction. A wonderful worker—
durable—faithful. A compact unit of power.

REDUCED PRICES—In invite new users in new fields and old. Prices that make the "CATERPILLAR"
now, even more than ever before, the most profitable investment for the countless tasks of the farm. Reduc-
tions mean real savings in money.

IF YOU NEED A "CATERPILLAR" YOU PAY FOR IT WHETHER YOU BUY IT OR NOT.

CATERPILLAR
UNION TRACTOR & HARVESTER
COMPANY, LIMITED
NINTH AVE. and EIGHTH ST. WEST. CALGARY

Eight children of Henry Flear
ranging from 6 to 16 years, appear-
ed in court in Chicago to accuse
their father of cruelty.

Mrs. Elizabeth Schorren of St.
Louis was sent to prison for theft as
a result of testimony given by her
daughter.

What a grand and glorious look-
ing to read 'way down in New York
what is happening in the 117 old hump
at home.

Soviets Are Willing To Extend Protocol To Baltic States

Paris.—Poland's acceptance of the Soviet proposal for a protocol putting the Kellogg pact into effect immediately in eastern Europe, will yield beneficial results, it is believed, in connection with the general situation in that part of the world.

The Russians have indicated that they are willing to admit not only Poland but also Rumania and the Baltic states to the provisions of this protocol.

Because of the Bessarabian question no diplomatic relations have ever existed between the Soviet and Rumania. It is surmised that the new protocol negotiations will lead to such relations.

The protocol will also go far in quieting Soviet fears of a great aggressive plot against Russia by the capitalist states led by Great Britain.

It is significant that Poland has waited until the United States ratified the Kellogg pact before accepting the Soviet proposal.

Sacrifices Life To Save Companion

Montreal Woman Insists on Firemen Saving Friend First

Montreal, Que.—Trapped in a top floor apartment, which she occupied with Miss Harriet Barr, a close friend, Mrs. N. Raibe, widow of Col. W. N. Raibe of London, England, sacrificed her life to save that of her companion in a fire which destroyed the Etonia apartment building, a four-story building here. When the firemen forced their way into the Raibe apartment from a ladder, while the fire was sweeping the lower floors, they found Mrs. Raibe near the window and started to carry her to safety, but she insisted that they first save Miss Barr, who was already overcome by smoke. The firemen carried Miss Barr down the ladder and returned to the top floor to find a seething mass of smoke and flames. Their efforts to rescue Mrs. Raibe were in vain and it was not until four hours later that they were able to make their way into the building and carry out her charred body.

France Seeks Payment For German Sugar

Over Three Million Dollars Worth Not Paid For Is Claim

Paris.—A search for more than \$2,000,000, owing the French government, was being made by police after it was revealed that reparations payments of sugar had been turned over to private concerns and not paid for.

Leon Poller, former professor of political economy at the University of Lille, has been arrested as a ringleader in the plot against the government. He is accompanying police on their visits to various concerns believed involved in the deals.

Forty thousand tons of sugar were delivered by Germany in lieu of cash as reparations payments. The sugar was turned over to the Sugar Farming company and the Franco-Moroccan Navigation company to sell, but the government has not received payment for it.

King's Condition Improves

London.—Continued improvement in the health of the King today led the court officials to begin planning the regular levees and other functions of the season. The first levee, at which the Prince of Wales will preside, will be held at St. James' palace on Feb. 26. The King's physicians have made it known that he must spend no more winters in England, and that he must seek a warmer climate for several months each year.

Treating Drug Addicts

Geneva.—Nontake Sato, the Japanese League of Nations representative, has informed the international opium committee that Japan was successfully applying medical treatment to Korean morphine addicts. Out of 64 cases, 600 had been sent to hospitals and cured.

Will Advocate Railway Link

Winnipeg.—J. T. Thorson, member of parliament for South-Centre Winnipeg, will bring up in the House of Commons at the forthcoming session the subject of more direct railway communication for Winnipeg with Hudson bay.

W. N. U. 1770

Class B Fairs

New Dates Are Set At Meeting Held In Winnipeg

Winnipeg.—The establishment of an eastern and a western circuit of B class fairs, and the setting of dates for fairs in each circuit, was the principal result of a session of the Western Canadian Fairs association held at the Fort Garry hotel.

The Western Canada Association of Exhibitions, which comprises the class A fairs concluded their convention in the afternoon.

Archie Wilson of Saskatoon, heads the Western Canada Association of Exhibitions for the coming year, being elected president to succeed H. W. Abbott of Edmonton at the closing session. H. G. Smith, Regina, was re-elected vice president of the organization and S. W. Jones, Saskatoon, will continue in office as secretary-treasurer.

Johnny J. Jones was awarded the contract for midway shows at class A fairs.

Because the circuit of the Western Canada Fairs Association had become so unwieldy by reason of the large number of fairs, it was divided into two circuits, and the dates for fairs set as follows:

Eastern circuit—Carman, June 29 to July 1; Estevan, July 3 to 6; Portage la Prairie, July 8 to 10; Dauphin, July 11 to 13; Prince Albert, July 15 to 17; Melfort, July 18 to 20; Yorkton, July 22 to 24.

Western circuit—Weyburn, July 8 to 10; Assiniboia, July 11 to 13; Lethbridge, July 15 to 17; Red Deer, July 22 to 24; Camrose, July 25 to 27; Vegreville, July 29 to 31; Vermilion, Aug. 1 to 3; Lloydminster, Aug. 5 to 7; North Battleford, Aug. 8 to 10.

EMBARGO BRINGS PROTEST FROM RAILWAY HEADS

Montreal.—The partial embargo placed against central European colonists by the Dominion department of immigration and colonization drew from the Canadian Pacific and Canadian National railways today a formal protest.

The decision, it was claimed in a statement issued by the presidents of the companies, will not only work distinct hardship on both transportation systems but will destroy the faith the governments, whose people are affected, have in Canada.

The companies deny they are interested in moving colonists from non-preferred countries in Europe rather than those from Great Britain or other northern European or preferred countries.

The attitude of the transportation companies was outlined in a statement issued to The Canadian Press by the railway presidents, E. W. Beatty and Sir Henry Thornton.

BACK FROM THE BARRENS

Although he had not been out of the Barren lands for fifteen years, George Yandle, trapper, maintained a fine sense of civilization. The first thing he did when he got to The Pas—he did not even wait until he reached Winnipeg—was buy himself a pair of spats with zippers. Yandle acted as interpreter when Count Ilia Tolstoy entertained the Eskimos in the far north. The photograph, which was taken outside the Canadian National Railway station in Winnipeg, just after the trio's arrival, shows Yandle; Tolstoy, in the center; and W. J. Casel, photographer. Count Tolstoy, who is the grandson of the great Russian writer and philanthropist, headed an expedition into the Barrens to study the migration habits of the caribou, and some unusual photographs were obtained of the immense herds. After spending a day in Winnipeg, the party, together with five Eskimo dogs, worth \$65 apiece, went to Timagami, the Ontario forest reserve, for further study of wild animals, and thence to New York.

RECEIVES IMPORTANT POST

Dr. Charles R. Best, collaborator with Dr. F. G. Banting in the discovery of insulin, has been appointed to the chair of physiology of the University of Toronto. He succeeds Prof. J. J. R. MacLeod, who left Toronto to return to the University of Aberdeen.

Exhibition May Be Re-Established

Winnipeg Ratepayers Will Vote On Question In March

Winnipeg.—An exhibition which the promoters hope will take a prominent place among the exhibitions of the Dominion is being planned at Winnipeg, according to Wesley McCurdy, director, speaking to western exhibition authorities meeting here yesterday.

Winnipeg ratepayers will vote March 15 upon the question of whether or not they wish to authorize expenditure of \$850,000 for the re-establishment of the city's exhibition.

Decline in Dairy Production

Winnipeg.—High spring feed prices and tempting offers by American buyers for dairy cows caused a falling off in total dairy production for 1928 in Manitoba, according to Alex. McKay, president of the butter manufacturer's section of the Manitoba Dairy association. The year, on the whole, was successful, the president intimated in his address.

To Tour Europe

Ottawa.—Arrangements have been concluded here for the European tour of a large party of Canadian club members. The group which it is expected will draw members from every part of the Dominion, is to sail from Montreal aboard the liner Laurentic June 8.

Wrote For "Punch"

London.—Rudolph Chambers Ledermann is dead at Bourne End after a long illness. He was famous as an oarsman and rowing coach and also for the light, witty verses which he contributed to "Punch."

Needs Britain's Protection

Iraq Is Not Sufficiently Prepared to Defend Itself

London.—Differences between the British and Iraq governments over the ability or otherwise of Iraq to defend itself have resulted in the resignation of the Iraq cabinet under Premier Aska Jafar Pasha of Askeri.

The British authorities hold the view that Iraq, placed under Britain's protection after the war, is not yet ready to assume full responsibility for its defence.

A treaty between the British and Iraq governments in 1923 provides the responsibilities of Great Britain as a mandatory power shall be terminated when Iraq is admitted to the League of Nations.

Iraq has a population of nearly 3,000,000, practically all Mohammedans. Its chief city is Baghdad, and the territory is east of Arabia, comprising 150,000 square miles.

The real difficulty it is pointed out in London is that even the existing agreements between Great Britain and Iraq are not fulfilled particularly with regard to military and financial matters, including railways and forts.

South African Tourists Greeted By Snowstorm

Students Wanted Thrill and Got It In Toronto

Toronto.—In the midst of a blinding snowstorm 37 students of South African universities arrived here in the course of their tour of United States and Canada.

"Just what we wanted," one of them exclaimed heartily, though citizens of Toronto were finding the storm troublesome. "We were counting on Canada for the thrill of real cold weather, lots of snow and the novelty of ice hockey," T. Thorpe, Capetown university spokesman for the visitors said.

The students were the guests of Toronto university and left for Montreal for a visit to McGill university. Before completion of the tour the students will have been away from home for three months and will have travelled 25,000 miles.

Crosses Atlantic In Steamer's Lifeboat

Stowaway From England Had Feet Frost-Bitten During Voyage

New York.—Matthew Baderley, youthful cheese cart driver of Cheshire county, England, completed a stormy crossing of the Atlantic in a lifeboat, an uncomfortable but not a dangerous journey, for the lifeboat all the time was hanging in its davits on the liner Lancastrian. For 10 days the stowaway stuck it out through storm and cold, living on the emergency rations in his hiding place. He kept his hands warm against his body, but his feet were frost-bitten and just before the ship reached quarantine the pain drove him forth.

He collapsed while telling his story but was revived and put to bed in the ship's hospital. He will be sent back to his cheese cart.

URGES BETTER FEELING BETWEEN TWO NATIONS

New York.—J. Ramsay MacDonald, former premier of Great Britain, in an article under his name in the current issue of The Nation, Liberal weekly, makes a plea for the understanding public men of the two nations "to meet and drag from the obscure corners of sulky suspicion the things that make difficulties between us."

The relations between the United States and Great Britain grow increasingly unhappy," he says. "A spirit is growing in the two countries, which is estranging them and is encouraging a kind of squabbling criticism which destroys mutual understanding and forbearance."

"Have both of us failed to observe how easy it is to slip into war for nothing, how ready popular imagination is to be set on fire by anyone—even an almost anonymous newspaper proprietor—who cares to light a match?" he asks, then continues:

"This is no case for private and unofficial action and conferences. The governments must act. Both countries ought to appoint five or six outstanding men to discuss our differences. Mayhap fresh air would clean our minds of them."

Demand Of Canada Favorably Considered By Radio Conference

Will Adopt Pension Scheme

Ontario Decides to Follow Action of Western Provinces

Ottawa.—The province of Ontario will shortly come in under the federal old-age pension scheme. This was stated by Hon. Peter Heenan, minister of labor, to a delegation representing the Confederation of Catholic Workers of Canada, which waited upon the government.

Mr. Heenan further said that the Dominion government was prepared to discuss with the provinces, which embraced the present scheme, suggestions for improving it. The government was prepared to consider with the provinces the adoption of a contributory system of old age pensions.

It was considered advisable, however, to get the present system established before making changes. The minister of labor said he anticipated that the province of Quebec would follow Ontario and embrace the old age pension system also.

Inspector's Seagrave's Car

Prince of Wales Learns Things About Speed Riding

London.—The Prince of Wales, driving alone in his automobile, made one of his typical impromptu visits to a London motor house to inspect the car "Golden Arrow" and the speedboat "Miss England," with which Maj. H. O. Seagrave intends to attack world's speed records this year.

The major happened to be present and he showed his vehicle to the prince, answering many questions about the sensations of speed riding.

Unemployed March to London

London.—The unemployed men marching from Glasgow to London expect to reach here about February 21. The first contingent numbers about 200 men but other parties will swell the total probably to 1,000. Two field kitchens and ambulances accompanying the marchers, who take collections and hold demonstrations en route.

SUNDAY SCHOOL LESSON

FEBRUARY 3
THE HOLY SCRIPTURES

Golden Text: Open thou mine eyes, that I may behold wondrous things out of thy law. Psalm 119:18.

Lesson: Deuteronomy 6:4-9; Joshua 1:8, 9; 2 Kings 22:8-20; Nehemiah 8:1-8; Psalm 107:1-4; Luke 24:25-32; Acts 17:10-12; 2 Timothy 3:14-17.

Devotional Reading: Psalm 119:103-112.

Explanations and Comments

The Value of The Scriptures, Psalm 119:11.—The law of Jehovah, the testimony of Jehovah, the precepts of Jehovah, the commandments of Jehovah, the ordinances of Jehovah—all of these expressions are terms for the Scriptures of the Old Testament, especially for the Sacred Law which they contain. "The Christian Church has legitimately extended the words to the larger body of Scripture which forms the Bible." This the Psalmist declares, is perfect, restoring the soul; sure, making wise the simple; right, rejoicing the heart; pure, enlightening the eyes—"imparting refreshment and vigor to the soul, giving new life and hope; dying eyes are glazed, a sick man's eyes are heavy and dull, health brightens them"; true, and righteous altogether.

The fear of Jehovah is clean, enduring for ever. "When among the five terms, each clearly significant of the Scriptures, the Psalmist introduces the abstract expression 'the fear of the Lord,' he must mean the awe, the obedience, the discipline and inspiration of the Book whose praise is the burden of his song" (George Adam Smith).

More to be desired are they than gold, yea, than much fine gold. "The Word like a deep, deep mine, Are hidden in its mighty depths For every searcher there."

Then with heart aglow, the Psalmist cries, "More to be desired are they than honey, and the droppings of the honeycomb"—the purest of the honey. "Moreover by them is thy servant warned; in keeping them there is great reward."

"If only we would obey the leadings of Christ, as the planets of the sun, our lives would be full of light and health and liberty. We should be restored to perfect health; our simplicity would be made wise, our hearts would be gladdened; our eyes would be enlightened; our poverty enriched, and our dispositions sweetened" (F. B. Meyer).

Ottawa.—Canada's claim to 40 per cent. of the intermediate waves has, it is understood, been successfully maintained at the international radio conference meeting here.

While the proceedings continued to be closely guarded, the scheme of division is believed to be approximately 40 per cent. to Canada and 60 per cent. to the United States. Newfoundland, Cuba and Mexico will share certain of the channels.

From the fact that most of the waves have a range of only 1,000 to 1,800 miles, Newfoundland can share a number of waves with stations in the southern United States and no conflict will occur. In the same fashion Cuba and Mexico will occupy certain channels in common with Canadian transmitters.

Although the percentages eventually chosen were probably always in view, it is known that the United States was seeking a much larger share.

There are 630 channels in the band with approximately 250 channels available for distribution after allowing for amateurs and dot-and-dash stations.

Ratifies Kellogg Treaty

Action of Lithuania May Affect Dispute Between Russia and Poland

Kovno, Lithuania.—The Lithuanian government ratified the anti-war Kellogg pact.

Ratification of the Kellogg pact by Lithuania has significance in its bearing upon negotiations between Russia and Poland for a special protocol applying the pact in a localized sense to the states that touch the western frontier of Russia. Poland and Lithuania have been at odds over frontier questions and over the ownership of Vilna, a city which Lithuania claims as its legitimate capital but which is now held by Poland.

Plan Air Endurance Test

Flight to Prove Claim Made for New British Plane

London.—The Mail says that a non-stop flight from Capetown to England is planned to test the claim made for a new British aeroplane that it is capable of flying further without refueling than any other in the world.

The plane, which has tanks for three and one-half tons of gasoline in its hollow 38-foot wing, is now being put through trail flights. Two pilots will fly it to Capetown by easy stages and attempt the return flight without a stop.

Gives Money As Memorial

Edinburgh, Scotland.—As a memorial to the twin doctors, Arthur and Sydney Smith, who committed suicide through despondency over the lack of public support for their life work in examining the development of radium as a treatment for cancer, an anonymous donor has offered the University of Edinburgh \$25,000 for radium purposes.

May Hold Thanksgiving Service

London.—With King George continuing his slow but satisfactory progress, there is talk of the probability of a national thanksgiving service at St. Paul's Cathedral. Such services were held twice during the reign of King Edward VII., but no service has been arranged yet officially for his son's recovery.

Booker Found Guilty

Edmonton.—Vernon Booker will hang on April 24, 1929. After a deliberation of five hours and eight minutes, the jury found the accused youth guilty of the murder of his mother, brother and their two hired men on July 9, 1928, at Manville. Mr. Justice Walsh immediately sentenced the slayer to be hanged.

Canada's Record Wheat Yield

Ottawa.—Canada's yield of wheat for the year 1928 amounted to 533,571,700 bushels. This is the highest on record and the first time that Canada has harvested a crop of over half a billion bushels. This announcement was made in the crop report just issued by the Dominion bureau of statistics.

Report Severed Relations

Berlin.—An entirely unconfirmed report circulated in Berlin said Japan had severed diplomatic relations with Russia. The source of the report was not known.
